

Valentines

Painting of Love

Toilet roll tubes come in very handy for so many crafts but this time we can use it as a painting tool. Yes, so no paintbrush needed! You can print as many hearts as you wish to give to your loved one. This could be for Mom or Dad or even a Grandparent you haven't seen for a while. Maybe it would be a nice idea to send you Painting of Love in the post to brighten up your loved one's day. Now, wouldn't that be nice! Enjoy!

Materials needed:

- Toilet roll
- Red and Pink paint
- Sellotape
- White paper
- Plate for paint

1. Shape the 2 toilet rolls into a heart shape. Tape around it with Sellotape to keep the heart shape.
2. Keep 1 toilet roll for the red paint and 1 for the pink paint.
3. Dip the toilet rolls into the paint and carefully print all over your paper.
4. When you have covered the page, allow it to dry.
5. When it is dry, take some markers and crayons to colour inside and around your love hearts.

Enjoy creating some love from Gillian
