

Valentines

Salt Dough Love Heart

Here's a lovely decoration to hang in your house to send your family all your love!

Materials needed:

- 3 colours of Salt Dough
- Cardboard cut into a heart shape
- Puncher or something to pierce a hole
- Pipe cleaner or string
- Pva glue (optional as the dough should still stick to the cardboard)

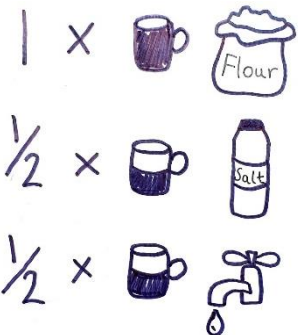

1. Make some salt dough using this salt dough recipe.

2. Colour your salt dough with your 3 chosen colours.

3. Ask a grown up to cut out a love heart shape from cardboard as cardboard can be very tricky to cut.

4. Then punch or pierce 2 holes at the top of the cardboard love heart.

5. Put some glue all over the cardboard love heart. This is optional as the salt dough should stick once it dries.

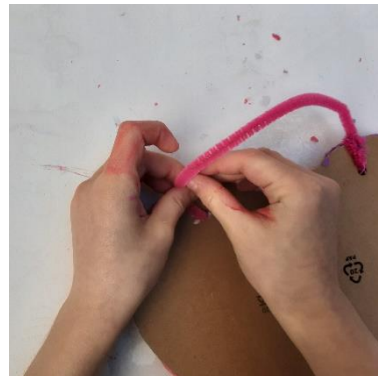

Enjoy creating some love from Gillian

Valentines

6. Take small pieces of salt dough and roll into little balls.
7. Then press and flatten the balls onto the love heart shape.
8. Continue to do this with different colours every time. You can overlap the colours to fill in some small gaps.

9. Once you have finished, peel off the salt dough around the edges of the cardboard love heart.
10. Push your pip cleaner through the hole and twist to secure it. You can use a string or wool here instead.
11. Now it's time to allow your salt dough love heart dry. This could take up to 1 week to dry depending on how warm the room is. Remember to let it dry flat!
12. When its fully dry you can hang it up.
